

Race Pace Bot mode (including Single Player Mode)

Yes, you can play a Single Player Mode with Bots!

In Bot mode, you can race against a grid of built-in bots (automated opponents). The game is designed in a way that you can play with any driver against up to 7 other Bot-drivers. This makes the track a bit more crowded and the game a lot more fun.

Before the start of the game, player(s) decide whether to add a number of Bot-drivers to the game. Also, players appoint someone to keep track of the each Bot's Race Pace.

The game is basically the same, but there are a couple of important changes.

Bot Actions

Bot Actions are determined by the Race Situation cards. On the next page you will find an overview of the action each Bot driver will perform in the current game round, depending on the drawn Race Situation card.

Bot rules

- Just like in the regular game, turns are per driver starting with the start player, even if this is a Bot. Then rotate clockwise. Mark the selected Bot action with the Action token of that driver.
- A Bot always takes the action shown on the Race Situation Card, even if a Bot cannot further upgrade that aspect of its car/driver.
- Bots always get their action, even if it is taken by another driver.
 - The only exception is the Start Player action. When 2 Bots select this action, only the Bot that chose it first gets the +1RP and the Start Player Card.
- Bots always drive with a RP +0 from tyres. You don't need to use Tyre Tokens or Tyre Degradation Markers for Bots
- Bots never make a pit stop
- Bots don't use their driver's special skill, but you can!
- Bots EBS charge will not be reduced after use
- Bots never receive RP penalty tokens
- Bots RP can be affected by the Race Situation cards
- Bots are also subject to the Safety Car conditions

Setup

Although you can select any team-driver combination you like, we advise the following combinations for a single player game:

	+ Eddy Nfufu		+ Bastian Schuberg
	+ Dutch Speed		+ Kimi Kaze
	+ Valentino Luciano		+ Jésus Salvador
	+ Céline Glace		+ Bjorn Hunter

Bot action per Situation Card

Race Situation I

Race Situation Card	Bastian	Valentino	Kimi	Bjorn
Aerodynamics	Driver Skill	Aerodynamics	Defend	Strategic Window
Engine	Strategic Window	Engine	Aerodynamics	Use EBS
Mechanics	Use EBS	Driver Skill	Driver Experience	Defend
Safety Car	Engine	Driver Experience	Use EBS	Driver Skill
Smooth Cruising	Aerodynamics	Use EBS	Driver Skill	Driver Experience
Tyre Management	Charge EBS	Defend	Strategic Window	Engine
Tyre Wear	Defend	Strategic Window	Engine	Aerodynamics

Race Situation II

Race Situation Card	Eddy	Dutch	Jésus	Céline
Charging...Take It Easy	Driver Experience	Charge EBS	Defend	Driver Skill
EBS Ends In Epic Duel	Charge EBS	Defend	Strategic Window	Engine
Sweaty Defend	Defend	Strategic Window	Engine	Aerodynamics
Strategic Window	Strategic Window	Engine	Driver Skill	Use EBS
Tactical Move Or Failure	Engine	Aerodynamics	Use EBS	Driver Experience
Daring Action	Aerodynamics	Use EBS	Driver Experience	Defend
Driving Error	Aerodynamics	Use EBS	Driver Experience	Driver Skill
Three Cars, One Corner	Use EBS	Driver Skill	Aerodynamics	Charge EBS
Don't Do Anything Crazy	Use EBS	Driver Skill	Aerodynamics	Charge EBS
Smooth Cruising	Driver Skill	Driver Experience	Charge EBS	Strategic Window
